Presiian Iskrenov

U.S. Citizen

Phone: 847-571-9579 | Email: PresB4Me@gmail.com
Address: 311 Gregory M Sears Dr., Gilberts, Illinois 60136

Objective: Obtain a full-time position in Software Engineering or related field.

Education:

Iowa State University; Ames, IA
Bachelor of Science in Software Engineering
May 2021

Academic Project Experience

Social Media App
• Worked on a team with four members to design a user friendly and unique social media app.
• Programming was done in Java for frontend and backend, and used popular programs: MYSQL, Android Studio, IntelliJ, Git, and Postman.
• Project goals: Ability to create an account, post profile picture, post profile information, Twitter-like live feed that updates in real time via server updates, and to display all classes offered by Iowa State University as well as a recommendation system where users can offer advice/tips.

Cloudflare AI Security
• Worked on a team of six to develop a console application that parses through Microsoft IIS log files and sends them to an Azure database
• Developed a scanner that takes database and parses through the relevant information to detect threats
• Scanner will output the IP address of these potentially harmful users and flag them
• Then we used the Cloudflare API to determine whether to time out an IP address or allow access.
• Language used – C#
    Technologies: MYSQL, Visual Studio, GIT, .NET

Skills:
• Proficient in Java, JavaScript, Python, SQL, HTML, CSS, C++, C, C#
• Bilingual: English and Bulgarian
• Proficient in PowerPoint, Word
